

VIPlanning Online Services: Drills & Exercises

Are You Ready to Change the Way Your School District Tracks Drills, Exercises & Incidents?

Say goodbye to the paper work maze and scheduling nightmares inherent in conducting and tracking drills, exercises and incidents.

Drills, Exercises and Incidents, the latest addition to the *VIPlanning® Online Services* suite of secure, web based tools, allows users to easily manage, track and update their drills, exercises and incidents.

Drills, exercises and incidents data can easily be defined, scheduled, tracked and stored for instant access. If an unscheduled emergency, lockdown or incident occurs, it can easily be added to the system database.

Whether you are an individual school/agency or a large or small school district/county, *Drills, Exercises and Incidents* provides a current overview of the status

Recording results can take minutes, not hours to complete, and reports can be easily generated.

Whether you are an individual school or a large or small school district, *VIPlanning® Online* will streamline the way you track drills, exercises or incidents.

To schedule an online Demo, call Visual Imagry today (425) 881-1945 or visit our web site www.viplanning.com.

VIPlanning Online Services: Drills & Exercises

Dashboard Overviews Provide Quick Access to Drills, Exercises & Incident Tracking Data

Each school/agency dashboard provides an overview of the status of drills, exercises and incidents for that school/agency while the district dashboard provides an overview of all district schools or agencies.. The dashboard provides easy access to your calendar, notices, exceptions (over-due drills), statistics and compliance information.

**#1
Events**

Displays a filtered calendar for each school/agency and can easily include district-wide events, holidays or incidents.

**#2
Notices**

Displays notices and updates, like requirements and reminders.

**#3
Exceptions**

Highlights when a schedule has not been met.

**#4
Statistics**

Shows the current overview of drills, exercises and data for a school / agency or entire district/ county.

The screenshot shows the VIPlanning dashboard for Washoe County School District. At the top, there is a navigation bar with 'Home', 'Setup', 'Facility', 'Tools', and 'Output' (labeled #6). Below this is a 'Drills & Exercises' section for 'Wooster High School'. The dashboard is divided into several panels: a 'Notices' panel (#2) with a system outage notice; an 'Exceptions' panel (#3) showing a fire drill scheduled for July 1, 2007; an 'Events' calendar (#1) for April, May, and June 2008; a 'Statistics' panel (#4) showing drill status (7 required, 5 not yet scheduled, 2 scheduled, 1 not yet completed, 1 completed, 1 optional, 1 completed); and a 'Compliance' panel (#5) at the bottom right.

**#5
Compliance**

Graphically demonstrates the current overview of drill and exercise compliance for a school facility or the entire district.

**#6
Navigation Bar**

Navigation is simple with *VIPlanning Drills, Exercises & Incidents*. The navigation bar provides quick access for setting up calendars, define requirements, schedule drills, or even sending out notices. Select "Output" and your reports are a mouse click away.

School Districts Can Easily Define Requirements for Drills and Exercises

Easily Assign Drill Requirements & Define Metrics

Assigning Requirements

- Each district can establish when and how certain types of drills or exercises need to be performed and results recorded.
- Each school can be assigned their required types of drills to be performed over specific time frames.
- Each school can schedule its own drills.
- Drill Specifications and related documents can be attached.

Streamlines Recording & Reporting

VIPlanning® Online Services: Drills, Exercises & Incidents is a comprehensive online tool that reduces compliance time and cost while it accelerates and refines reporting.

Record Results

- **Record** results easily as you input data into predefined categories after each drill is performed.
- Unplanned events and incidents can also be entered and have their metrics recorded post occurrence.
- Documents, such as *After Action Reports*, can be attached to drill and exercise results.

Easily Generate Reports

- **Report** findings, from the simplest updates to detailed reports, easily and automatically.
- Export report data to Word or Excel.
- Customizable reports can be created for an additional fee.

Defining Metrics

- Specific information to be collected about each type of drill and exercise. Common metrics across drill types allow for comparisons, such as number of persons participating in a drill and elapsed time.

VIPlanning Online Services: Drills, Exercises & Incidents

Assures Your Data is Safe and Secure

VIPlanning® Online Services security includes:

Secure Access

All communications between the user and service is secured using 128 bit SSL encryption, the standard for secure web communications.

Secure Facilities

The service is professionally hosted in a secure commercial hosting facility. Physical access to the facility is strictly controlled 24 X 7 including manned checkpoints, continuous CCTV recording of all entranceways and server areas, and electronic recording of all building egress and ingress.

Data Segregation

Each customer has their own separate database and file storage area assuring isolation of their data from all other customers.

Role Based Authentication

Access to each piece of data is subject to authentication. Designated customer users have the right to control who can view or modify each piece of data. To reduce complexity this scheme is role based, meaning that one or more roles have data access and each user (login) is assigned one or more roles.

Your data is safe and secure with VIPlanning Drills, Exercises & Incidents.
